### Work Experience

---

#### Full Stack Developer – OTA Sync · (November 2022 – January 2024)

- Developed an **Online Travel Agency (OTA) sync platform** for hotel owners, featuring a **Property Management System (PMS)** with **reservation display**, **room management**, and **invoice generation**.
- Engineered **API integrations** and **PHP cURL/webhook connectors** for data exchange with external systems including **Open GDS**, **Minimax**, and **Price Labs**, automating **pricing**, **accounting**, and **reservation workflows**.
- Built **data-scraping processes** for importing hotel and room details directly from **Booking.com** and **Airbnb**, accelerating onboarding by **over 60%**.
- Built and optimized modules for **Expense Management**, **Reports**, and **Automated Emails** - enabling **recurring entries**, **scheduled report generation**, and **customizable email templates**.

#### JavaScript Game Developer – Frontmen Studio · (September 2021 – November 2022)

- Developed and maintained **slot games** such as *Dino Zone*, *Moonlight Wolves*, *Ali Baba*, *Super Stack Cat*, etc.
- Implemented and stabilized **core game features** (*re-spins*, *free spins*, *turbo modes*, *auto-play*, *bonus multipliers*) using **JavaScript (ES6+)**, **Pixi.js**, and **GSAP/TweenMax**.
- Worked on **animations** and **presentation layer** (*reels*, *symbols*, *winning animations*) using **Spine** and **GSAP**, and implemented complex features like **Switching Stacks** and **Sticky Wilds re-spins** to enhance **UX**.
- Integrated **server responses** into the frontend via a **custom communication service layer**, mapping **outcomes**, **bonuses**, and **win logic** to ensure **seamless game functionality**.
